PROFILE

Dynamic and motivated Junior Full-Stack Developer with a solid background in Mechanical Engineering and technology. Proficient in MERN, Python, and Java, with a strong interest in building practical and user-focused applications. Continuously developing skills in Artificial Intelligence through professional certifications and online learning. Eager to contribute to impactful projects and grow within a collaborative development environment.

PROFESSIONAL EXPERIENCE

Ghdamsi Industrial Works (GTI)
Mechanical Engineer
01/2022 – 09/2022 | Ghannouch, Gabes, Tunisia

- Implement Projects within the industrial zone of Gabes (Outsourcing).
- Participated in initiatives to improve workshop organization, inspired by 5S methodology principles.
- Collaborate with multi-disciplinary engineering teams, and work with vendors and contractors.

Tunisian Chemical Group
End of Studies Internship
02/2019 – 06/2019 | Ghannouch, Gabes, Tunisia

- Study and design of a hydraulic bending machine with three rollers.
- Functional Analysis.
- Calculation and Sizing by Solidworks.

TECHNICAL SKILLS

Concepts:
OOP, Entity Framework Core, Data Design and Relationships, Modularization, MVC Architecture, WPF, ORMS, Routing, Encryption & Data Security Basics, Cookies and Sessions, Algorithmics, Package Management, Machine Learning, Deep Learning, Neural Networks, Computer Vision, NLP, Prompt Engineering, LLM, Chatbots, Project Management.

Tools/Libraries:
Git, GitHub, VS Code, Spring Tool Suite, Visual Studio, Postman API, NPM/Bower, MySQL Workbench, socket.io, jQuery, IntelliJ IDEA, Jupyter.

Programming
Python, Java, JavaScript, HTML, CSS.

EDUCATION

IBM AI Engineering Professional Certificate
IBM(Coursera)
12/2025 – 05/2026

- Completed a comprehensive program covering Machine Learning, Deep Learning, and Generative AI.
- Built and trained models using TensorFlow, Keras, and PyTorch, including NLP applications with Transformers.
- Implemented AI applications using Retrieval-Augmented Generation (RAG) and LangChain, and completed a hands-on capstone project.

SOFT SKILLS

- Adaptability
- Problem Solving
- Critical Thinking
- Continuous Learning
- Teamwork
- Collaboration

INTERESTS

- AI & Emerging Technologies
- Movies & TV Shows
- Sports (Football, Basketball, Tennis, F1)

American Certification in Full-Stack Web Development
Coding Dojo
10/2022 – 06/2023 | Tunis, Tunisia

- Completed an intensive full-stack development program covering Python, Java, and MERN.
- Completed 1,000+ hours of hands-on coding and two final projects.
- Practiced algorithms and problem-solving on a daily basis.
- Developed communication and teamwork skills through soft-skills training.

Mechanical Engineering Diploma
National School of Engineers of Gabes
09/2016 – 06/2019 | Gabes, Tunisia

- Focus on design, mechanics of materials, energy systems, and production machinery.
- Research, design, develop, and test production machines.
- Apply scientific methods to Problem-Solving.

PROJECTS

Event Planner
Python-based web application aimed at streamlining event organization and management processes.
06/2023 – 06/2023

- Developed a full-stack event management application using Django, supporting event creation and scheduling.
- Implemented backend functionality and integrated the OpenStreetMap API for interactive, location-based event visualization.

Music DB
Java-based web application, developed as a group project, enabling users to create, rate, and favorite songs and albums.
06/2023 – 06/2023

- Developed RESTful APIs using Spring for managing songs and albums.
- Implemented concurrent user actions and efficient backend routing to support responsive user interactions.
- Implemented search functionality for quick access to songs, albums, and track information.

CERTIFICATES

- Google Project Management — Google / Coursera
- Google Data Analytics — Google / Coursera
- Google UX Design — Google / Coursera
- Microsoft Technologies — Azure, Azure AI, Power Platform, Dynamics 365, Microsoft 365
